- 6. Calendar & Events
- 7. Project Archives
- 8. Knowledge Products & Brochures
- 9. Livelihood Program Feeds
- 10. Org Structure & Committee
- 11. Tracking Matrix

1. Introduction

The **GAD Corner Admin Panel** is your central hub for managing the Gender and Development platform. This manual provides a step-by-step guide on how to update content, manage users, and monitor application health.

Key Support Formats:

- **Images:** PNG, JPG, WEBP, GIF (Max 5MB)
- **Documents:** PDF, DOCX, DOC
- **Media:** MP4, WEBM, OGG

1.1 Interface Philosophy

The interface is designed to be mobile-responsive and intuitive. Navigation is handled via the sidebar on the left, while actions like "Add" or "Edit" typically happen within distinct modals or dedicated forms.

2. Authentication & Access

Security is paramount. Only authorized technical officers should possess administrative credentials.

2.1 Login Portal

Access the portal at `/admin/login`. Enter your username and password as configured in the system environment.

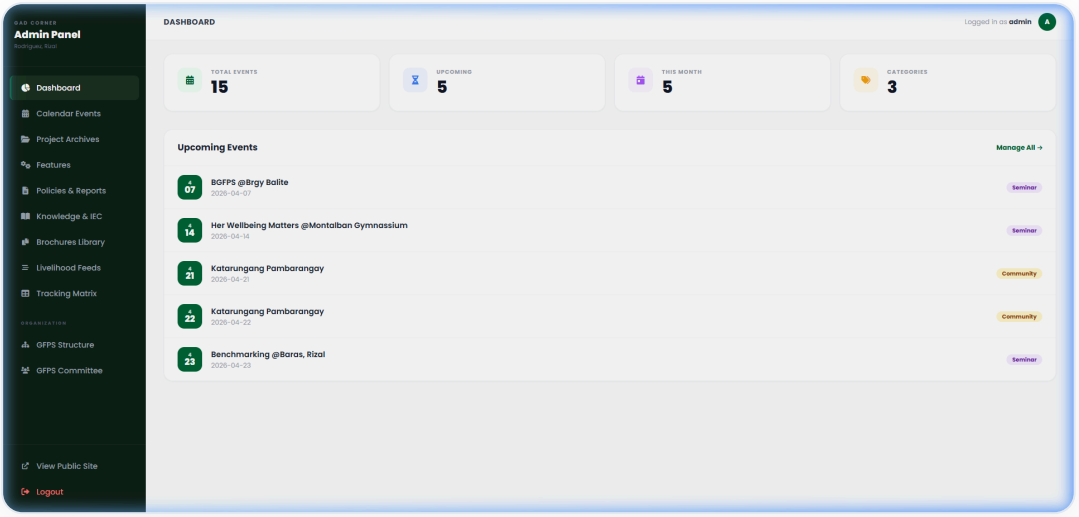

Figure 1: The Administrative Dashboard Interface

3. Dashboard Overview

Upon successful login, you are presented with the Dashboard. This page highlights active events and system counts.

- **Total Events:** Lifetime count of events.
- **Upcoming:** Events scheduled for future dates.
- **This Month:** Activities specifically for the current period.

The "Upcoming List" allows you to quickly verify the next 5 programmed activities without leaving the home screen.

4. Site Features & Scraper

Use the **Features** tab to manage the public-facing homepage and automated background tasks.

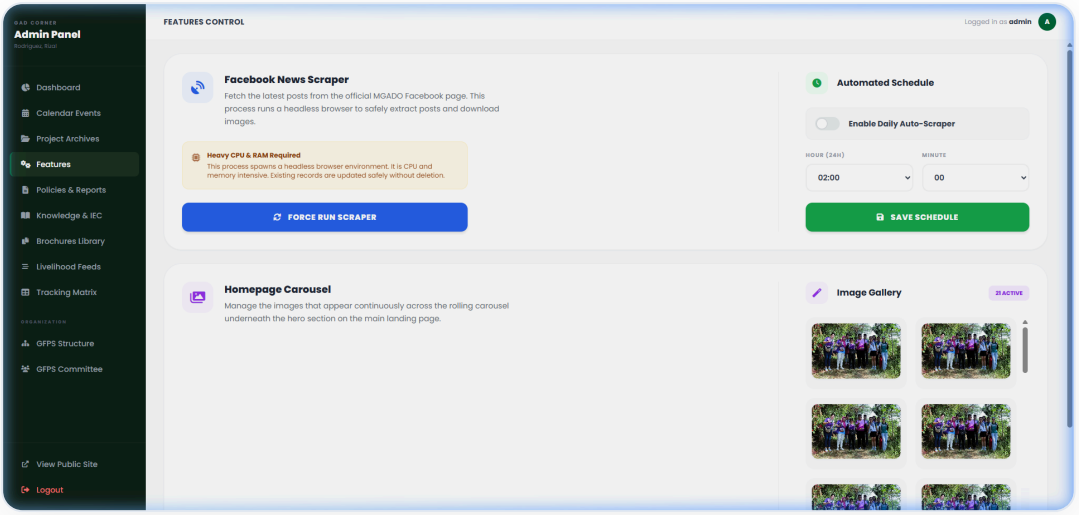

Figure 2: Site Features and Scraper Configuration

4.1 Home Carousel

Add URLs of high-quality images to appear in the homepage slider. Note that the order is strictly enforced by the "Order" index.

4.2 News Scraper

The system includes a Playwright-based scraper. You can set it to run at low-traffic hours (e.g., 02:00 AM) to keep the "GAD News" section fresh with the latest developments from external sources.

5. Policies Management

The Policies module manages all legal and administrative documents relevant to GAD.

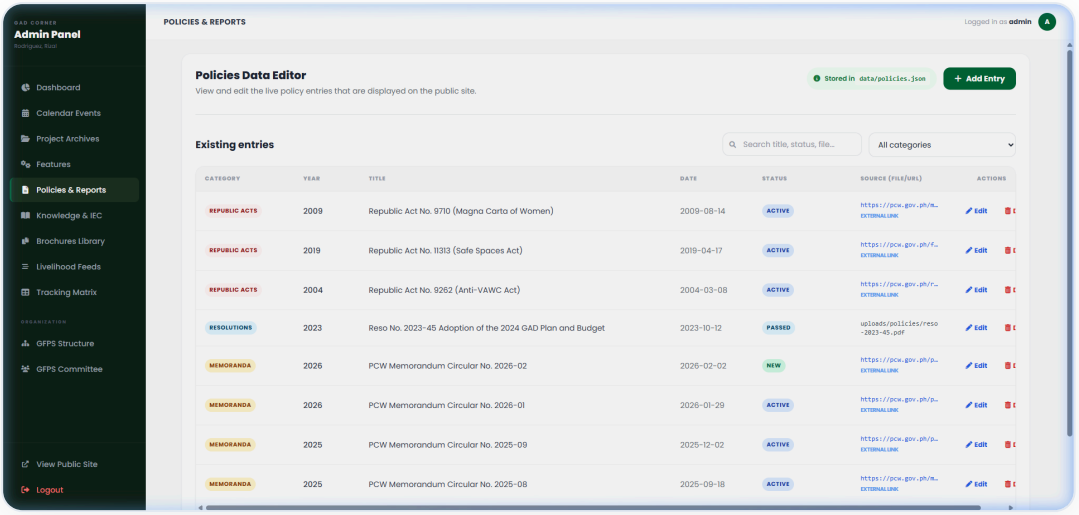

Figure 3: Policy Repository Management

5.1 Adding a Policy

When adding a policy, ensure the category is correct (Circulars vs. Memos). You can upload a file directly or link to an external source. If a video explanation is available, the "Video URL" field will embed it on the public site.

6. Calendar & Events

Manage the community calendar from this module.

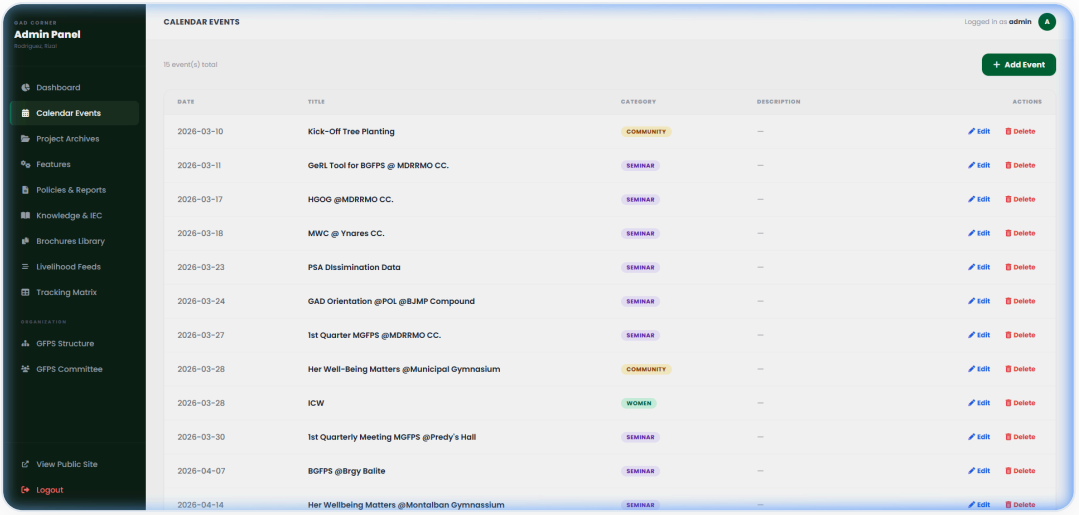

Figure 4: Event Scheduling Tool

Events are automatically sorted by date. Past events will remain in the database but are filtered out of the "Upcoming" views on the public site.

7. Project Archives

The Project Archive module showcases the impact of GAD initiatives over the years.

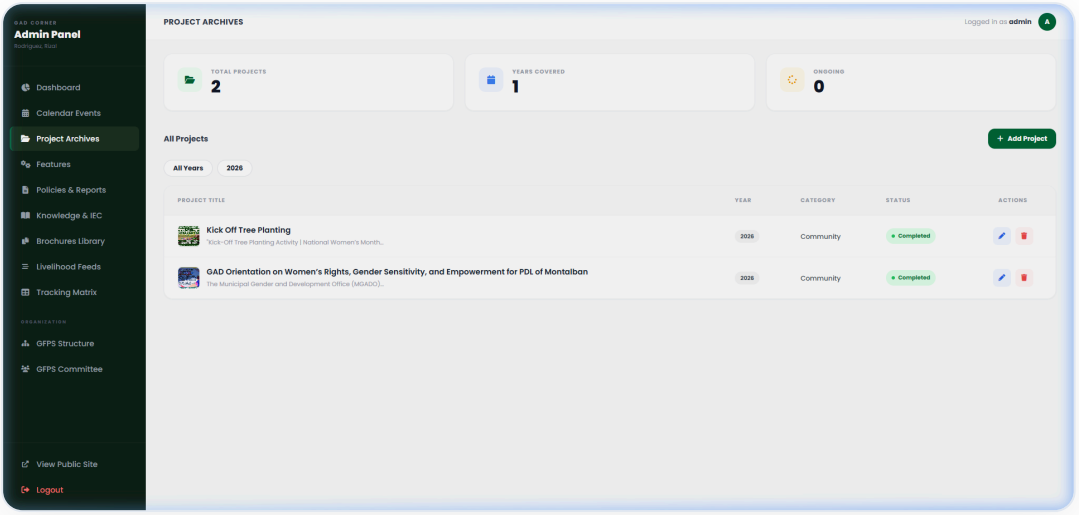

Figure 5: GAD Project Listing and Tracking

Status	Meaning
Ongoing	Currently being implemented.
Completed	Fully realized projects.
Proposed	Planned initiatives awaiting approval.

8. Knowledge Products & Brochures

These sections handle the "Resource Center" of the website.

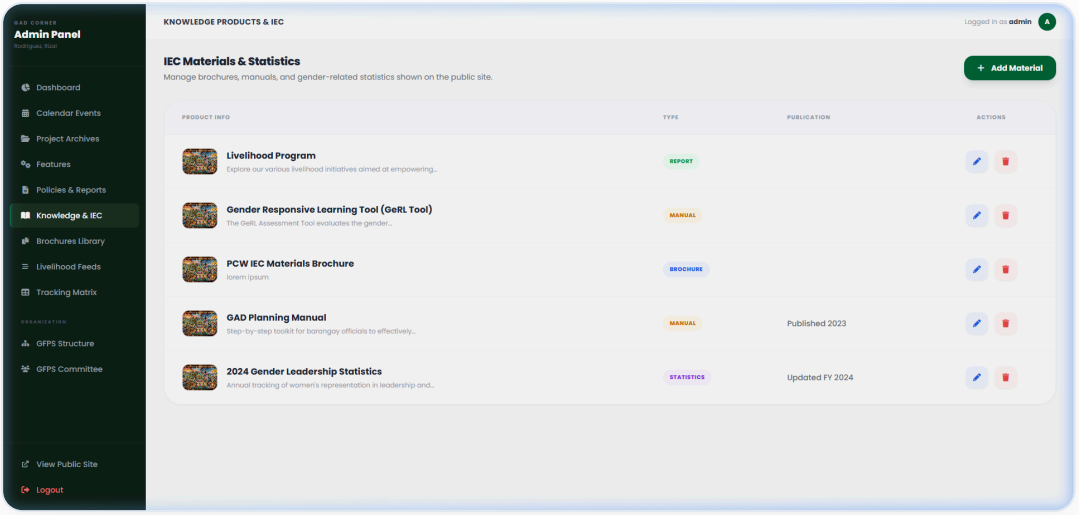

Figure 6: Knowledge Products Management

8.1 Brochures

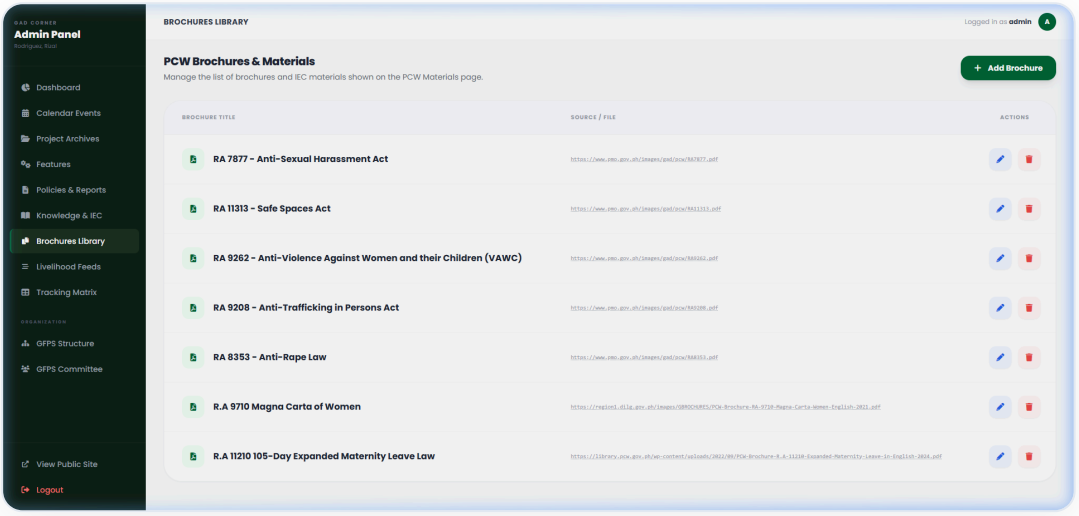

Figure 7: Digital Brochures and Flyers

Upload compact flyers or brochures that citizens can download for offline reading.

9. Livelihood Program Feeds

Bridge the gap between social media and the official portal by linking direct feeds.

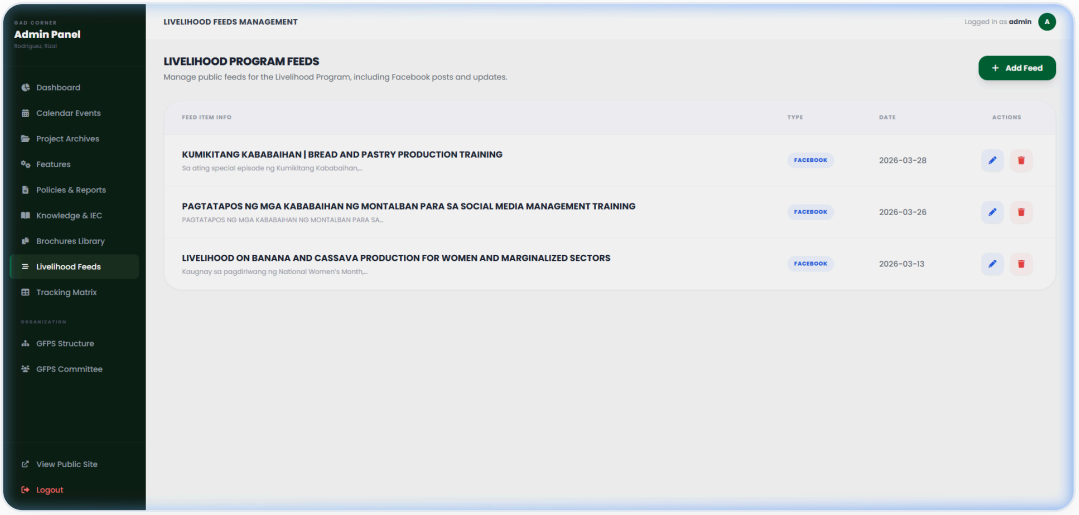

Figure 8: Social Media Feed Integration for Livelihood Projects

Input the URL of a Facebook post or Reel, and the system will automatically generate a secure, sanitized embed frame for the public view.

10. Org Structure & Committee

Managed specifically for transparency in governance.

10.1 Organizational Chart

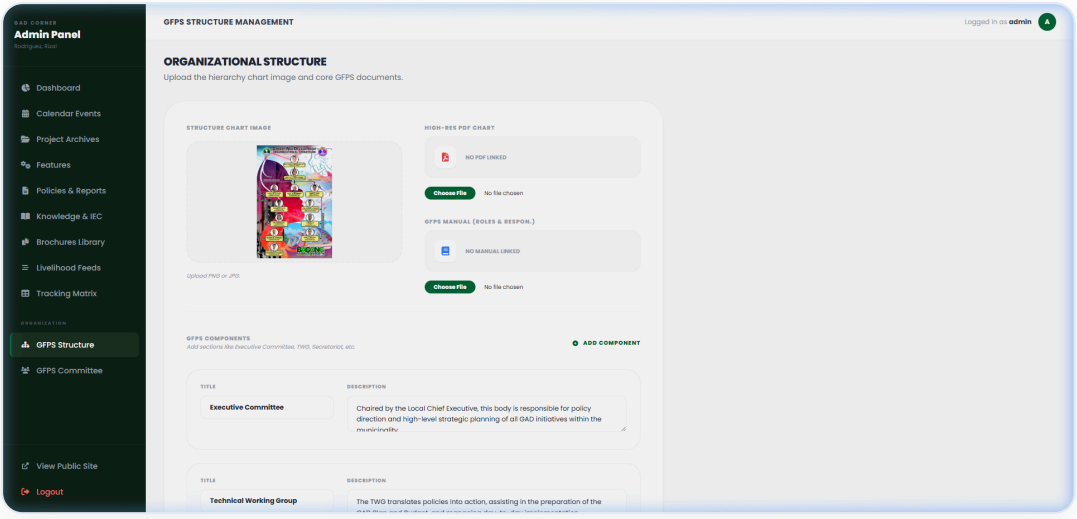

Figure 9: Hierarchy and Structure Management

10.2 GAD Committee

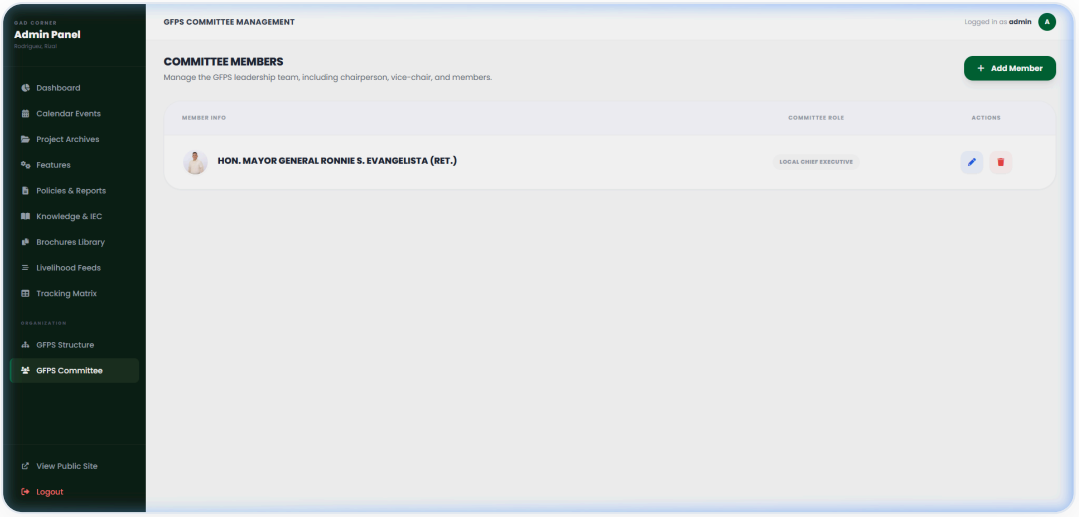

Figure 10: GFPS Committee Members

11. Tracking Matrix

The Tracking Matrix is your internal audit trail. It logs every action made by admin accounts.

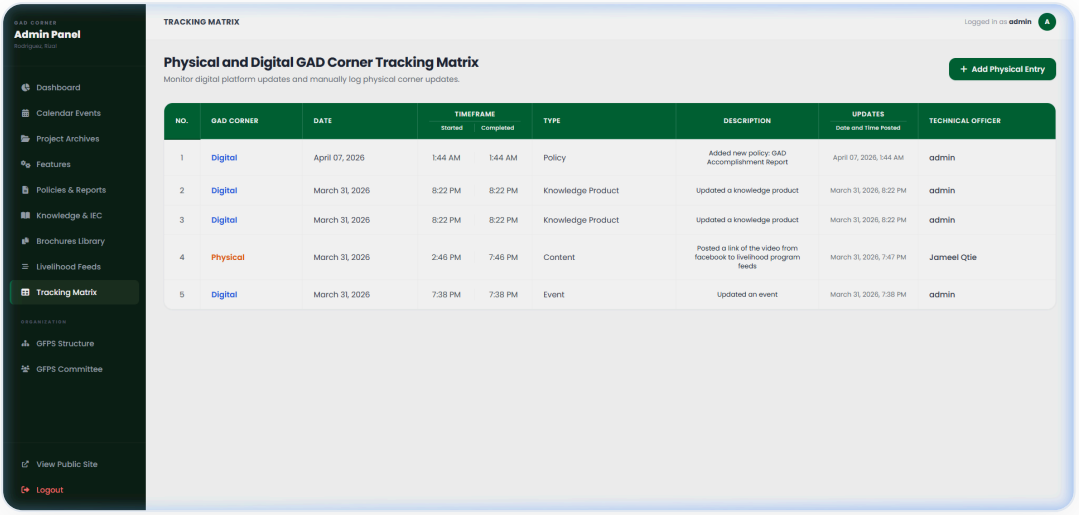

Figure 11: Real-time Action Tracking and Audit Logs

This allows for accountability and provides a "Digital Footprint" required for official government reporting on digital asset management.
